

## INTERNSHIPS (HUMAN DEVELOPMENT AND CHILDHOOD STUDIES)

The Department of Human Development and Childhood Studies has over the years developed a network with various reputed schools, government and non-government organisations and other research and extension agencies. Every year in the months of June-July, students are helped to link with these organisations based on their interests for the purpose of internship. This provides excellent opportunities to prepare for and understand the professional world through field exposure, hands-on learning and peer networking. Students document their experiences as well as make a presentation at the department which leads to both reflection and consolidation of their work. As a consequence of good performance these organizations have also offered employment to the students, once recent example is SEWA Bharat.

**The details of our interning organisations are as follows:**

<b>Year</b>	<b>List of Interning organizations</b>
