

ANNUAL REPORT 2025

ENACTUS LADY IRWIN COLLEGE

Enactus Lady Irwin College focuses on creating social impact through business-driven solutions. The society via projects like Nav Chetna and Maan Daan encourages students to solve real-world problems using entrepreneurial approaches. By working on community-focused projects, members develop critical problem-solving skills while fostering sustainable change.

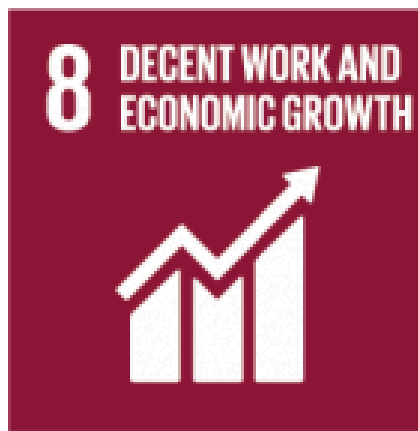

PROJECTS

Project Maan Daan: Aim is to provide technical support to the tribal communities with basic facilities and recipe standardisation. Worked on “Roat”, a delicacy from Uttarakhand and an “Apple Jam” specifically made from Rymar Apples.

Project Nav Chetna: Aim is to standardise a SOP so that we convert traditional restaurants into QSRs and provide unskilled labours with job opportunities
