When one thinks of fashion, images of spotlights, stilettos, and flawless models often come to mind. But behind the glamour lies a world of relentless rehearsals, detailed planning, and creative vision – all essential ingredients in bringing a powerful performance to life.

Prophecy – The Fashion Society of Lady Irwin College stands as one of the most prominent and influential societies in Delhi University's fashion circuit. More than just a fashion society, Prophecy is a movement, one that dares to envision the future and strives to spark meaningful change through bold and thought provoking performances.

With a legacy spanning over a decade, Prophecy has consistently used fashion as a medium to expose societal injustices, challenge norms, and inspire dialogue. Each production is a carefully crafted narrative that merges style with substance, making Prophecy not just a name, but a voice loud, fearless, and unforgettable.
